

DRONACHARYA

College of Engineering

KHENTAWAS, FARRUKHNAGAR, GURGAON, HR

DEPARTMENT OF CSIT and IOT & CYBER SECURITY

FIRST SESSIONAL EXAMINATION (JANUARY-JUNE-2026)

(GURUGRAM UNIVERSITY)

Course Code:	Course Title: CLOUD COMPUTING	
Semester: 6	Maximum Marks: 70	Date:
Branch : CSIT / IOT&CS	Time: 03 Hours	Roll No.:
Note: : Q.1 is compulsory. All questions are compulsory. Each question carries equal marks (14 marks). Assume data, if any are missing.		

Q.1. Short Answer type questions. (2 X 7=14 Marks)

- How do online social networks benefit from cloud computing?
Provide examples. (CO-1)
- Mention any four barriers to cloud computing adoption in enterprises. (CO-3)
- What is meant by "cloud governance"? (CO-3)
- Give any four real examples of novel applications of cloud computing. (CO-1)
- How does cloud computing reduce dependency on local infrastructure? (CO-1)
- List four risks associated with cloud computing. (CO-2)
- Mention any four key objectives of governance in cloud environments. (CO-3)

SECTION-A

- Q.2.** Explain the fundamental components of cloud computing architecture. How cloud computing enables the growth and scalability of online social networks. Discuss the role of elasticity and distributed storage in supporting millions of users simultaneously. (CO-2)

OR

- Q.3.** (a) Compare and contrast public, private, hybrid, and community clouds. Highlight their advantages, disadvantages, and suitable use cases.
- (b) Explain cloud service delivery model in detail ? (CO-1, CO-2)

Q.4. Explain the essential characteristics of cloud computing. How do these characteristics differentiate cloud computing from traditional computing models? **(CO-2)**

OR

Q.5. Define the SPI framework for cloud computing. **(CO-1)**

SECTION-B

Q.6. “Hypervisor is the brain in virtualisation” Support the statement with diagram. **(CO-3)**

OR

Q.7. (a) Explain the concept of On-Demand Computing.
(b) How does virtualization at the infrastructure level enable efficient resource utilization in cloud environments? **(CO-3)**

Q.8. What do you understand by virtualisation in cloud computing. Explain its different types. **(CO-3)**

OR

Q.9. (a) Evaluate the key drivers that encourage enterprises to adopt cloud computing.
(b) what do you understand by Cloud Deployment Model. **(CO-1)**
